

2024.07.05 weekly meeting agenda

Agenda

1. Review Current Goals

- Examine the fitted model using filtered data
- Fit the stan model with filtered data
- Test the fitted model about convergence and outliers
- Revise the script
- More info on PIT
- Revise the sd_diff figure
- pull out the extreme value from the sd_diff figure

2. Progress Update

- Examined the fitted model using filtered data
- Fitted the stan model with filtered data
- Revised the manuscript
- Revised the sd_diff figure and pulled out the extreme value
- Tested the fitted model about convergence

3. Challenges and Roadblocks

- Failed to save the stan model with filtered data
- Stan model does not fully converge

4. Next Steps

- save the fitted model with filtered data
- Revise the model to find out what is wrong

Action Items

- ☐ Task 1: ...
- ☐ Task 2: ...
- ☐ Task 3: ...

Additional Notes

- Remember to track progress and adjust goals as needed.
