Template for summary report meetings

Agenda

1. **Review Current Goals**

   - Add a quantitative statistic to explain the outliers
   - Further revise the outlier part in the script
   - Revise the stan code and maybe fit for the first round?
   - Further reading about posterior predictive checking

2. **Progress Update**

   - Mean, sd, 2d grads added to explain the outliers
   - Test the stan model for a small subset of data and small number of iterations
   - New figure for the pareto k diagnostic
   - Read 2/3 of the *Bayesian statistics and modelling*

3. **Challenges and Roadblocks**

   - Still not clear why some entries in light_curves with high pareto k value but are not outliers to the model

4. **Next Steps**

   - Plan actions for the upcoming week.

Action Items

☐ Task 1: ...
☐ Task 2: ...
☐ Task 3: ...

Additional Notes

- Remember to track progress and adjust goals as needed.
